JANUARY—APRIL, 1926

PHILADELPHIA

THE WISTAR INSTITUTE OF ANATOMY AND BIOLOGY

CONTENTS

No. 1 JANUARY, 1926

GEORGE F. SLEGGS. The adult anatomy and histology of the anal glands of the Richardson ground-squirrel, <i>Citellus richardsonii</i> , Sabine. Nine plates (twenty figures)....	1
GEORGE B. WISLOCKI. Further observations upon the placentation of the sloth (<i>Bradypus griseus</i>)	45
AMERICAN SOCIETY OF ZOÖLOGISTS, TWENTY-THIRD SESSION:	
Proceedings, Officers and List of Members	53

No. 2 FEBRUARY, 1926

GEORGE M. HIGGINS. The biliary tract of certain rodents with and those without a gall bladder. Fourteen figures	89
CHI PING. On the testis and its accessory structures in the porpoise. Two figures	113
JOHN H. SCHAEFER. The normal weight of the pancreas in the adult human being: A biometric study. Six figures.	119
HARRY A. KULL. The late embryonic development of the thyroid gland of the albino rat. One plate (four figures)	133
KARL SCHLAEPFER. A further note on the motor innervation of the diaphragm. Seven figures	143
ROBERT H. BOWEN. The golgi apparatus—its structure and functional significance. Two figures	151
H. LAMS. Professeur Omer van der Stricht	195

No. 3 MARCH, 1926

AMERICAN ASSOCIATION OF ANATOMISTS, FORTY-SECOND ANNUAL SESSION:	
Abstracts	199
Demonstrations	246

No. 4 APRIL, 1926

T. C. BYERLY. Studies in growth. I. Suffocation effects in the chick embryo. Fifteen figures	249
WILLIAM H. F. ADDISON AND HAROLD W. HOW. Congenital hypertrophy of the eye in an albino rat. Seven figures	271
DAVENPORT HOOKER. Notes on a correlated course in anatomical subjects	279
LAWRENCE ONIS MORGAN. Iron hematoxylin as a myelin sheath stain and neutral red ripened by colon bacillus as a nerve-cell stain. One plate (two figures)	283
DOUGLAS REID. Notes on the salivary glands. One figure	295
AMERICAN ASSOCIATION OF ANATOMISTS, FORTY-SECOND SESSION: Proceedings, List of Officers and Members	301
H. McE. KNOWER. Building plans for the anatomical department, with a discussion of their relations to class teaching and to the development of the individual student ...	327
RALPH F. SHANER. The development of the skull of the turtle, with remarks on fossil reptile skulls. Sixteen figures	343
H. E. JORDAN. The transformation of lymphocytes into erythroblasts in a lymph node of a rabbit. Three plates (eleven figures)	369
